

# TAVY Thin-Skin & TAVY 007 Thin-Skin Adhesive

Renovate existing floors or countertops with the beauty of tile, marble, granite or other natural stone. Now old or outdated areas can be easily tiled.

TAVY Thin-Skin is a membrane/slip sheet that will allow you to lay ceramic tile or natural stone over most any questionable surface without raising the level of the floor or object more than the thickness of the tile. TAVY Thin-Skin when used in tandem with TAVY 007 Adhesive will provide the following benefits:

- Eliminate unnecessary structural tear outs
- Minimize overall load weight
- Minimize total increase in floor height
- Create tileable surface
- Provide hairline crack suppressant

## Compare to other underlayments:

- Lighter:** TAVY Thin-Skin is lightweight and easier to handle.
- Cleaner:** No dusty mess to clean up.
- Easier to Install:** 1 gallon of TAVY 007 Adhesive for every 100 sq. ft. roll of TAVY Thin-Skin.
- Thinner:** No additional height added to existing surface.
- No Waste:** All TAVY Thin-Skin scrap pieces are useable.
- Save Money:** 30% - 50% cost savings versus other underlayments.
- Simple:** All you need is TAVY Thin-Skin, TAVY 007 Thin-Skin Adhesive and mortar. No more nails, screws or other fasteners.

Simply follow the instructions and nearly any sound surface is ready for tile or stone.

## Here's How:

- Clean the existing surface of dust, dirt and debris.
- Spread TAVY 007 Thin-Skin Adhesive as instructed.
- Cut TAVY Thin-Skin to cover area and set in freshly spread adhesive.
- Apply skim coat of mortar over TAVY Thin-Skin as instructed.
- Set tile, marble or granite using TAVY Tile Spacers.
